

Junior Designer

Full Time | Oxfordshire, UK

£17 - £19k

We have an exciting new opportunity for a Junior Designer/Artworker to join our team. You will be ready to develop your existing skills by working with senior creative staff on a range of ambitious and innovative projects.

The Role

You will be responsible for helping to drive the creative direction of campaigns. You will be required to have an understanding of design, layout, and creative trends to help the team produce the best work possible. Communication is a big part of the job, so you must feel confident enough to contribute to the entire creative process.

You will be responsible for:

- Assisting in the design of brochures, websites, reports, forms and information guides for our range of services.
- You will be assisting with form and document versioning, web artwork and proofing.
- Assisting in the design of printed literature, adverts and digital content.
- Working with the sales and bid team to assist with the artworking for key pitch presentations.
- Helping to create short videos & animations that will aid in the awareness of our company and products

Minimum Qualifications

- A good working knowledge of the Adobe Creative Suite.
- Diverse portfolio which demonstrates proficiency in the artworking of brochures, concept mock-ups, presentations and posters.
- Experience within the creative industry desirable, preferably in a design role.
- Ability to work to tight deadlines.
- Strong attention to detail.
- Excellent organisational and communication skills.

About HT2 Labs

HT2 Labs create software that changes the way businesses and individuals experience learning. We research some of the biggest problems in learning and performance, with a view to developing technologies that can help, even if that's just in a small way.

What we're really good at is solving big, emergent problems with simple, intuitive technology. Right now our research interests revolve around semantic analysis, competency development and machine learning.

In practice these research themes impact on our ability to recognise student achievement (however that occurs), to create credible metrics for personal development, and to generate increased engagement for providers dedicated to lifelong learning.

Inspired by places like the MIT Media Lab; we're a group of ambitious, research-driven professionals, trying to develop the next big breakthrough in online learning. Our award-winning software suite is used by a diverse range of global clients, from startups to Fortune 500 companies.

Led by our CEO, Dr Ben Betts – one of the world's foremost experts on social learning and the researcher behind our Social Learning Platform and Learning Record Store - we have a unique range of skills within our in-house team, spanning from university lecturers and former teachers, to world-class Engineers and PHDs that all help to drive forward our innovations.

Together, we're proud to work with some of the world's leading organisations and research bodies to create next generation learning ecosystems, engaging learning platforms, and easy-to-understand data management systems.

To Apply

Send your current CV, along with a covering letter outlining your interest and suitability for the role, to hello@ht2labs.com. Interviews will take place virtually in the first instance with face-to-face second round interviews for successful candidates.
